I LOVE 'MINNESOTA' MACARONI

MOST NUTRITIOUS FOOD SOLD IN TOPEKA

Topeka women should know that "Minnesota" macaroni, besides being so delicious, is also four times as nutritious as beef-steak and six times as nutritious as potatoes.

"Minnesota" macaroni contains more proteins than most foods and is therefore more strength giving and less fattening. It is served often in place of meat the whole family will be much healthier. And, besides, it will reduce the cost of living as "Minnesota" macaroni costs only one cent a dish.

There is a big difference in macaroni as sold in the stores. Insist on "Minnesota" macaroni, made from genuine Durum wheat with all the wonderfully nourishing Gluten left in. You can get it in long pieces or cut into uniform short lengths.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

BIG NAVY WASTE ADMISSIONS HELP

First Class Expenditures With Fourth Class Results.

Lack of General Staff Is Cause, Says Roden.

Washington, April 12.—To the lack of a general staff was attributed the unpreparedness of the American navy and its want of battle efficiency by E. K. Roden, of Scranton, Pa., in an address at today's session of the Navy League of the United States. The speaker was discussing the subject, "Why We Need a Navy General Staff."

Mr. Roden declared that with an appropriation not larger than that expended by the United States, Germany has built up a navy 30 per cent greater in combined units and as a whole, more modern in construction and this he attributed to the fact that the German navy is headed "by a tried-out efficient general staff." He asserted that although, "during the past fifteen years congress has appropriated more than a billion and a half dollars for the navy, a sum greatly in excess of that by any other power except Great Britain yet at the present time our navy is rated as a fourth class power."

Continue Army Bill Debate.

Washington, April 13.—Debate on the army reorganization bill was continued in the senate today with prospects of the favorable action on the proposed government nitrate plant for the manufacture of powder in war times and fertilizer in peace. This was forecast as the result of the defeat by a vote of 47 to 24 of Senator Hawick's motion to eliminate the fertilizer feature of the proposed amendment to the bill.

SURVEY CITY SCHOOLS.

Topeka Official Takes Part in Investigation That Covers State.

Lawrence, Kan., April 12.—A complete survey of all city schools in Kansas has been started by a committee appointed by the Kansas Schoolmasters' club in an effort to make a school report in every city of the state uniform so that comparisons can be made. Dean F. J. Kelley of the school of education at the University of Kansas, has announced. Superintendents of city schools have been asked to make out a uniform report of school conditions in their community. Heretofore these reports have been made out in an individual way and there was no basis of comparison. It was pointed out, and the school men think that much good could be derived if one school could compare its condition with another on an equal basis. Looking toward this Dean Kelley has sent out uniform blanks to all city superintendents in the state. A few of the points covered are:

How successful are the schools in holding the pupils?

Are the children in grades in which they normally should belong?

What preparation and experience have the teachers had? Are their salaries adequate?

What proportion of the city budget is spent for schools? What is the cost per pupil of instruction, supervision, fuel, janitors and buildings?

What is the percentage of failures made by the pupils?

The members of the committee that is making the investigation are: Dean F. J. Kelley, M. E. Pearson, Kansas City; L. A. Lowther, Emporia, and A. J. Stout, Topeka.

WANT TO CAPTURE VILLA.

Leavenworth Carnival Company Makes Offer to General Funston.

Leavenworth, Kan., April 12.—An outfit of expert scouts and others who are well acquainted with the Mexican country may be assembled by a Leavenworth carnival company, the S. W. Brundage shows, on the border in a short time and an expedition into Mexico made for the purpose of assisting in chasing down Pancho Villa. Saturday M. T. Clark, general manager of the shows, telegraphed General Funston, offering one thousand dollars for the bandit chief's uniform and firearms in the event he was captured. Yesterday he received the following reply:

"Replying to your telegram in reference to the purchase of uniform and firearms of Villa in case of capture, you are advised that the army does not engage in transactions of this nature."

Mr. Clark came right back with the following and is anxiously awaiting a reply:

"Should we arrange privately and be successful in capturing Villa or any of his followers, will the army consent to the captors accepting our reward for the delivery to us of uniform and firearms? Should we agree to this then we will attempt arrangements with parties on the border and if successful in our efforts will turn over to you providing you agree to the above."

TO GROW ENGLISH WALNUTS.

New Crop in Kansas Planned by Ottawa Men.

Ottawa, Kan., April 12.—There are some English walnut enthusiasts in Ottawa, men who feel assured that since everything else can be profitably produced here, there is no reason why the delicious nut should not be. "I don't see," remarked William R. Dean, reflectively, "why the Almighty didn't make those nut trees indigenous in this country. If they'll grow and thrive in New England, they sure should here. And back east fellows are getting rich raising English walnuts in waste corners of their old played-out stone draped farms."

W. H. Martin and Dr. J. P. Dean's opinion. Anyway the trees have sent in orders to a nursery at Rochester, New York, and have just received a consignment of two-year-old walnut trees, that they will propagate as an experiment. The trees commence to yield return when five years of age.

Wilson Stays by Brandeis.

Washington, April 13.—President Wilson, it has been learned, is determined to stand behind the nomination of Louis D. Brandeis, as associate justice of the supreme court, in spite of reports of determined opposition among members of the senate. Officials said the president would not consider withdrawing the nomination.

Kansas City Pastor Resigns.

Kansas City, Mo., April 13.—Dr. Frank S. Arnold, for the last ten years pastor of the First Presbyterian church here, one of Kansas City's downtown churches, has tendered his resignation to his congregation. It is to take effect in June.

Germany Confesses Sinking Three Merchant Ships.

U. S. Prepares Reply While Awaiting Official Text.

Washington, April 12.—While awaiting the official text of Germany's note on the Sussex and other cases, which was expected momentarily to-day administration officials were carefully examining statements in the unofficial text received from Berlin and comparing them with evidence already at hand.

Germany's admissions that her submarine recently torpedoed three merchant ships carrying Americans and that one of them attacked a vessel near the point where the Sussex met disaster, simplifies the work of the state department in preparing for the next step of this country's policy in the submarine controversy.

Officials make it plain that this step rests on the accumulation of evidence that American lives are constantly in danger in violation of their rights. The United States will continue to compile evidence indicating that German submarines are operating in violation of the rules of international law.

Instructions to Ambassador Gerard designed as the final word of this government on the subject will soon be sent to Berlin, it is said.

MELONS GROW IN KANSAS.

Climate Is All Right—Sandy Loam Is Best Soil.

Manhattan, Kan., April 12.—The climate of Kansas is adapted to successful melon culture and wherever the soil is suited to the requirements of these crops, they may be profitably grown, either for home use or on a commercial scale, declares F. S. Merrill, assistant in horticulture in the Kansas State Agricultural college.

"Melons attain the highest quality on a sandy loam, or light soil containing plenty of humus, free from weeds and well drained," says Mr. Merrill. "A soil of this type with a clay subsoil gives the ideal condition, especially in cases where the rainfall is likely to be deficient. A soil that is rich in nitrogen should not be selected, for although the vine growth is increased and larger fruit result, the quality is usually decreased. Such fruit is soft and rather insipid and does not keep or ship well."

"For home planting, the heavier soils may be fitted for melons by working well rotted manure into the hills. Such soils often produce good fruits. For commercial growing, melons can be more cheaply produced on the lighter soils to which they are best adapted."

PERFECTS TALKING MOVIES.

Kansas Man Has Picture Machine That Produces Sounds.

Marion, Kan., April 12.—Fred Gowen, a resident of Marion, has finally perfected a motion picture machine that will talk simultaneously with the showing of the scenes. In this invention the pictures and the sound record are impressed on the film so the two will coincide exactly.

Mr. Gowen has been experimenting for a long time on this machine. The sound is made to issue from the screen by means of a transcriber. The music is very clear and equals that of a Victrola. It is the machine which has been on exhibition here for some time.

Mr. Gowen is a native of Kansas, having been born at Peabody. He lived there about two years ago operated a greenhouse there for a number of years.

"THE OLD ORDER CHANGETH."

New Vision Before Country Harger Tells Aggie Students.

Manhattan, Kan., April 13.—"Kansas and the United States are seeing a new vision, it is being realized more and more that we owe something to society," C. M. Harger of Abilene, editor of the Abilene Reflector and chairman of the state board of corrections, told the students of the Kansas State Agricultural college. "You must give a part of your time and your money and your efforts, to your community, in order to accomplish real things."

Mr. Harger spoke to the students at the general assembly period in the college auditorium. Besides the students, there were many town people who were anxious to hear the address. The subject of the talk was "Getting Results."

BREWSTER TO TAKE ACTION.

Prosecutions May Result From Hutchinson Laundry Girl Problem.

Hutchinson, Kan., April 13.—Attorney General S. M. Brewster will institute criminal prosecution against Hutchinson laundrymen who have discharged girls if the present investigation discloses that the discharge of the girls was due to the laundry workers.

giving information to the industrial welfare commission at the recent hearing here.

A story in the Hutchinson News headed, "Discharge of Girls," reached the office of Mr. Brewster and he immediately wrote a letter to the laundrymen here citing the law covering the discharge of girls and the provisions of this section have been violated and if such is the case it is my duty to prosecute," said a part of the letter.

The violation of this law is a misdemeanor and is punishable by a fine of not more than \$100.

TO BUILD NEW HIGH SCHOOL.

Topeka Firm Draws Plans for Building in Scott County.

Scott City, Kan., April 13.—Holland & Son, Topeka architects, have been employed by the county commissioners to prepare plans and specifications for the new county high school.

The work on the specifications will be rushed and the contract for the construction of the building will be awarded May 8. The new building will be ready for use by the opening of school, September 4.

Grainfield Needs New Hotel.

Grainfield, Kan., April 13.—For the first time in thirty years this town is without hotel conveniences. The old Occidental hotel, when Geo. S. Dryer operated it, was one of the best in western Kansas and people flocked here because of the first class service he gave them. Because of its dilapidated condition it has been closed.

The town deserves a modern hotel, and here is a good opening to put one in. Grainfield is a railroad town in Gove county and a good business center.

THE PAXTON & PAXTON STORE Sixth and Quincy Sts. THE PAXTON & PAXTON STORE

New Silk Dresses, Coats and Waists for Easter

Take note of the prices and make comparisons.

Handsome Silk Dress, \$8.95—Very attractive, button trimmed; crepe de chine collar; skirt of a very stylish fullness. Save \$3.00 or \$4.00 at our cash price, \$8.95.

Silk Dresses \$10.95, \$11.50 and \$13.50—These are very handsomely trimmed. Some have the Georgette crepe sleeves and white crepe vest and collar. Colors, navy, brown, black and plum.

36 inch Seco Silks, for women's waists and children's dresses. A splendid wearing material in a good line of colors. Per yard 25c.

ACHES AND PAINS

Don't neglect a pain anywhere, but find out what causes it and conquer it. A pain in the forehead region may put you on your back tomorrow. Don't blame the weather for swollen joints. It may be an advanced warning of Bright's disease. A pain in the stomach may be the first symptom of appendicitis. A creak in the joints may be the forerunner of rheumatism. Chronic headaches more than likely warn you of serious stomach trouble. The best way to keep in good condition day and day out by regularly taking GOLD MEDAL HAARLEM OIL Capsules. Sold by reliable druggists. Money refunded if they do not help you. Beware of substitutes. The only pure imported Haarlem Oil Capsules are the GOLD MEDAL.—Advertisement.
